Journal of Milk and Food Technology
Index to Volume 41

AUTHOR INDEX

ABE, M. O., evidence for a lactic streptococcal role in Nigerian acidic cassava fermentations, 781
ACTON, J. C., (see Titus, 606)
ADAMS, J. T., (see White, 356)
AHMED, E. M., (see Knapp, 257)
AHRENDSEN, G. P., book review — Fundamentals of Normal Nutrition, 583
ANDERSON, D., survey of home-canned tomatoes in Utah, 514
ANDERSON, N. E., estimation of tryptophan content by spectrophotometric methods: analysis of the interaction between alpha-ketoglutaric acid and tryptophan, 163
ANDREWS, G. P., modified Vogel and Johnson agar for *S. aureus*, 530
ARCHER, D. L., overview of immunotoxicology of foodborne substances, 983
ARNOLD, R.G., (see Maxcy, 14)
ATKINSON, J. C., (see Gecan, 696)
AYRES, J. C., (see Swaminathan, 518)
AYRES, J. L., (see Marion, 54)
BAILEY, J. S., (see Cox, 341)
BAILEY, R., (see Mundt, 944)
BAKER, R. C., (see Raccach, 703,798)
BALLINGER, W. E., nondestructive quality evaluation from a horticulturist's point of view, 63
BASSETTE, R., (see Mehta, 806)
BEALE, S. H., trouble shooting a mastitis problem, 320
BECK, R. N., (see Walker, 899)
BENAVIDES, J., (see Llewellyn, 785)
BERNHARDT, L. W., (see Quast, 667)
BERRY, B. W., (see Joseph, 881)
BEUCHAT, L. R., use of alkaline peeling effluents from vegetable and fruit processing operations by *N. sitophila*, 24
BHATT, N. N., (see Singh, 275)
BIER, J. W., (see Jackson, 613)
BIGALKE, D. L., effect of low-temperature cleaning on microbiological quality of raw milk and cleanliness of milking equipment on the farm, 902
BIRTH, G. S., introduction, nondestructive quality evaluation of agricultural products, 48
BLACKWELL, J. H., potential transmission of foot-and-mouth disease in whey constituents, 631; (see Cunliffe, 706)
BLANKENSHIP, L. C., (see Craven, 794)
BORDNER, R. H., standardization of microbiological methods for analysis of water, 314
BORGES, M. S., comparison of milk quality in Belo, Horizonte, Brazil market, 739
BOUGH, W. A., (see Beuchat, 24)
BRAUDE, G. L., (see Jelinek, 476)
BROWN, W. L., (see Goodfellow, 598)
BRYAN, F. L., time-temperature observations of food and equipment in airline catering operations, 80; factors that contribute to outbreaks of foodborne disease, 816
BULLERMAN, L. B., (see Olivigni, 432)
BUSTA, F. F., (see Schneider, 800)
CADY, P., automated impedance measurements for rapid screening of milk microbial content, 277
CANNON, R. Y., (see Marshall, 544)
CARROLL, D. E. Jr., (see Ballinger, 63)
CARSON, M. O., (see Cox, 341; Mercuri, 427)
CHEN, M. F., (see Jaynes, 510)
CHRISTIANSEN, L. N., fate of *C. botulinum* in perishable canned cured meat at abuse temperature, 354; (see Ivey, 621)
CHRISTIE, J. S., (see Hunter, 726)
CHRISTOPHER, F. M., microbial flora of pond-reared shrimp, 20
CIEGLER, A., trichothecenes: occurrence and toxicoses, 399
CLARK, W. S., (see Fowler, 4)
CLYDESDALE, F. M., (see Anderson, 163)
COLE, R. J., basic techniques in studying mycotoxins: isolation of mycotoxins, 138
COLLINS, E. B., enumeration of *L. acidophilus* with agar plate count, 439
COLLINS, J. L., (see Mundt, 944)
COLLINS, M. E., (see Gray, 31, 36)
COMMONER, B., mutagenic analysis as a means of detecting carcinogens in foods, 996
CONTE, F. S., (see Christopher, 20)
COX, N. A., comparison of two minikits (API and R-B) for identification of *Enterobacteriaceae* isolated from poultry and meat products, 107; effectiveness of sampling methods for *Salmonella* detection on processed broilers, 341; recovery of salmonellae from broiler carcasses by direct enrichment, 521; (see Mercuri, 427)
CRAVEN, S. E., growth and production of enterotoxin by *S. aureus* S-6 in soy proteins and soy-supplemented beef and pork sausage, 794.
CUNLIFFE, H. R., persistence of foot-and-mouth disease virus in dried casein, 706
DAHL, C. A., cook/chill foodservice systems: microbiological quality of beef loaf at five process stages, 788
DAVIS, L. A., (see Joseph, 881)
DECAREAU, R. V., foodservice equipment: technological trends, 459
DeLUCCA, A. J. II, isolation and identification of lipolytic microorganisms found on rough rice from two growing areas, 28
DOLARA, P., (see Commoner, 996)
DOYLE, M. P., aflatoxin is degraded by fragmented and intact mycelia of *A. parasiticus* grown 5 to 18 Days with and without agitation, 549; bisulfite degrades aflatoxin: effect of temperature and concentration of bisulfite, 774, effect of citric acid and methanol and possible mechanism of degradation, 891
DuFOUR, S. W., (see Cady, 277)
DUITSCHAEVER, C. L., bacteriological evaluation of frankfurters in the Canadian retail market, 770
DULL, G. G., nondestructive quality evaluation of agricultural products: definition and practical approach, 50
DUNCAN, C. L., (see Naik, 100)
EADIE, T., (see Llewellyn, 785)
EITENMILLER, R. R., (see Voigt, 182, 730)
EMSWILER, B. S., device for microbiological sampling of meat surfaces, 546; (see Pierson, 263; Kotula, 447)
FAGUNDES, C. M., (see Borges, 739)
FATTAL, B., (see Sadovski, 336)
FINNEY, E. E. Jr., engineering techniques for nondestructive quality evaluation of agricultural products, 57
FLICK, G. J. Jr., activities of five acid phosphatases in purple, green and white eggplants, 272

FOSTER, J. F., bacterial populations of ground beef, textured soy protein and ground beef extended with soy protein after 3 to 10 days of refrigerated storage, 647; comparison of bacterial species isolated from ground beef, textured soy protein and ground beef extended with textured soy protein, 961; (see Fowler, 4; Fruin, 692)
FOWLER, J. L., analyst variation in doing the standard plate count as described in *Standard Methods*, 4; (see Foster, 647, 961; Fruin, 692)
FRANK, J. F., behavior of enteropathogenic *E. coli* during manufacture and ripening of brick cheese, 111; survey of soft and semisoft cheese for presence of fecal coliforms and serotypes of enteropathogenic *E. coli*, 198
FRITZ, J. H., (see Summers, 660)
FRUIN, J. T., microbiological criteria for food, 481; survey of bacterial populations of bologna products, 692; types of *C. perfringens* isolated from selected foods, 768; (see Foster, 647)
FRY, D. D., presidential address, 926
FUNG, D. Y. C., (see Goldschmidt, 201)
GALAL, M. K., (see White, 356)
GARCIA, R. A., (see Marriott, 897)
GASAWAY, J. M., significance of abuse chemical contamination of returnable dairy containers: pesticide storage and detector evaluation, 851, sensory and extraction studies, 863, hazard assessment, 965
GECAN, J. S., microanalytical quality of unsweetened chocolate, 696
GELDREICH, E. E., microbiological standards for water, introduction, 302
GERBA, C. P., a review of detection and occurrence of enteric viruses in shellfish, 743
GERDING, T. A., (see Jackson, 613)
GILLIS, W. T., (see White, 356)
GINN, R. E., comparative evaluation of the Difco disk assay method for detecting penicillin in milk and milk products, 361
GOEPFERT, J. M., (see Parker, 116; Rappaport, 533)
GOLDBERG, D., (see Sadovski, 336)
GOLDSCHMIDT, M. C., new methods for microbiological analysis of foods, 201
GOODFELLOW, S. J., fate of *Salmonella* inoculated into beef for cooking, 598
GORDIN, S., efficacy of chicken pepsin as a milk clotting enzyme, 684
GOYAL, S. M., (see Gerba, 743)
GRAY, J. I., precursors of dimethlynitrosamine in fried bacon, 31; formation of N-nitrosopyrrolidine in fried bacon, 36
GREESON, P. E., microbiological monitoring for water-quality assessment, 309
GUILFOYLE, J. R., (see Kotula, 447)
GUTHERTZ, L. S., (see Foster, 647, 961)
HALL, C., (see Stewart, 364)
HAMILTON, P. B., fallacies in understanding of mycotoxins, 404
HARDY, D., (see Cady, 277)
HARMON, C. C., (see Marshall, 168)
HARMON, L. G., (see Thompson, 16)
HARMON, S. M., media for confirming *C. perfringens* from food and feces, 626
HARTMAN, P. A., (see Marshall, 544)
HATCHER, W. S. Jr., (see Murdock, 254, 689)
HAYES, A. W., introduction, mycotoxins, a real or potential problem, 373; occurrence of aflatoxin in hypoallergenic milk substitutes, 974; (see Siraj, 370)
HEENAN, T. L., an evaluation of the Minnesota program for prevention of foodborne illness, 556
HENRICKSON, R. L., (see Raccach, 957)
HERRMANN, E. C. Jr., concerns, experiences, attitudes, and practices of executives of chain foodservice firms regarding quality control procedures, 291
HERRMANN, J. A., (see Herrmann, E. C. Jr., 291)
HICKEY, C. S., (see Robach, 699)
HILL, W. S., (see Licciardello, 948)
HOGAN, G. R., (see Hayes, 974)
HOPKINS, A., (see Fowler, 4)
HOWELL, C., functional properties of plasmids as related to enumeration of bacteria important to the food microbiologist, 44
HUHTANEN, C. N., effect of acids on selenite inhibition of *S. typhimurium* and *S. dublin*, 289

CONTENTS, VOLUME 41

January (No. 1)

Research Papers

Analyst Variation in Doing the Standard Plate Count as Described in *Standard Methods for the Examination of Dairy Products*
J.L. Fowler, W. S. Clark, Jr., J. F. Foster* and Alan Hopkins ---------- 4

Tissue Distribution and Residues of Antibiotics in Normal and Emergency-Slaughtered Dairy Cows after Intramammary Treatment

J. F. M. Nouws* and G. Ziv ---------- 8
A Test to Determine Microquantities of Milkfat in Cleaning Solution by Surface Film Displacement
R. B. Maxcy* and R. G. Arnold ---------- 14
Survival of Selected Organisms During Spray Drying of Skim Milk and Storage of Nonfat Dry Milk
S. S. Thompson, L. G. Harmon* and C. M. Stine ---- 16
Microbial Flora of Pond-reared Shrimp (*Penaeus stylirostris, Penaeus vannamei* and *Penaeus setiferus*)
F. M. Christopher, C. Vanderzant*, J. D. Parker, and F. S. Conte ---------- 20
Use of Alkaline Peeling Effluents from Vegetable and Fruit Processing Operations by *Neurospora sitophila*
L. R. Beuchat*, W. A. Bough and C. T. Young ------- 24
Isolation and Identification of Lipolytic Microorganisms found on Rough Rice from Two Growing Areas
A. J. DeLucca II, S. J. Plating and R. L. Ory* ------- 28
Precursors of Dimethylnitrosamine in Fried Bacon
J. I. Gray*, M. E. Collins and B. MacDonald ---------- 31
Formation of N-Nitrosopyrrolidine in Fried Bacon
J. I. Gray* and M. E. Collins ---------- 36
Microbiological Evaluation of Shrimp (*Pandalus borealis*) Processing
S. C. Ridley and B. M. Slabyj* ---------- 40
General Interest
Functional Properties of Plasmids as Related to Enumeration of Bacteria important to the Food Microbiologist
C. Howell and W. J. Martin* ---------- 44
Nondestructive Quality Evaluation of Agricultural Products: Introduction
G. S. Birth ---------- 48
Nondestructive Quality Evaluation of Agricultural Products: A Definition and Practical Approach
G. G. Dull ---------- 50
Nondestructive Quality Evaluation of Agricultural Products — Industrial Application
J. E. Marion*, J. L. Ayres, and Bob Steele ---------- 54
Engineering Techniques for Nondestructive Quality Evaluation of Agricultural Products
E. E. Finney, Jr. ---------- 57
Nondestructive Quality Evaluation from a Horticulturist's Point of View
W. E. Ballinger*, W. F. McClure, E. P. Maness, W. B. Nesbitt, D. E. Carroll, Jr. and R. P. Rohrbach ---------- 63

*Asterisk designates person to whom inquires regarding the paper should be addressed.

February (No. 2)

Research Papers

Time-Temperature Observations of Food and Equipment in Airline Catering Operations
Frank L. Bryan*, Kathy A. Seabolt, Richard W. Peterson, and Linda M. Roberts ---------- 80
Heat Resistant Psychrotrophic Bacteria in Raw Milk and Their Growth at 7C
E. M. Mikolajcik* and N. T. Simon ---------- 93
Effect of Several Factors on Total and Differential Counting of Somatic Cells in Farm Bulk Tank Milk
F. H. S. Newbould ---------- 96
Thermal Inactivation of *Clostridium perfringens* Enterotoxin
H. S. Naik and C. L. Duncan* ---------- 100
Microbiological Evaluation of Retail Ground Beef in Izmir, Turkey
John L. Sumner ---------- 104
Comparison of Two Minikits (API and R-B) for Identification of *Enterobacteriaceae* Isolated from Poultry and Meat Products
N. A. Cox* and A. J. Mercuri ---------- 107
Behavior of Enteropathogenic *Escherichia coli* During Manufacture and Ripening of Brick Cheese
J. F. Frank, E. H. Marth*, and N. F. Olson ---------- 111
A Research Note: Enhancement of Synthesis of *Bacillus cereus* Enterotoxin Using a Sac-Culture Technique
Deborah A. Parker and J. M. Goepfert* ---------- 116
A Research Note: Relationship of Chlorine Treatment Levels and Development of Off-Flavors in Canned Sweet Corn
K. G. Weckel, J. H. von Elbe*, and R. C. Lindsay -- 118
A Research Note: Evaluation of Botulism Hazard in Fresh Mushrooms Wrapped in Commercial Polyvinylchloride Film
D. A. Kautter*, T. Lilly, Jr., and R. Lynt ---------- 120
General Interest
Heating Milk for Microbial Destruction: A Historical Outline and Update
Dennis C. Westhoff ---------- 122
Education and Training to Prevent Problems in Food Protection: Experience in the Nation's Capital
Bailus Walker, Jr. ---------- 131
Enumeration of Viable *Lactobacillus acidophilus* Organisms in Dairy Products
M. L. Speck ---------- 135
Basic Techniques in Studying Mycotoxins: Isolation of Mycotoxins
R. J. Cole ---------- 138
Proceedings of the Sixteenth National Conference on Interstate Milk Shipments
J. C. McCaffrey ---------- 141

March (No. 3)

Research Papers

Consumer Beliefs Concerning Intentional and Unintentional Additives in Health Food Breads: Chlorinated Hydrocarbon Pesticide Residues
L. Peringian, N. Shier*, and R. A. Leavitt ---------- 160
Estimation of Tryptophan Content by Spectrophotometric Methods: Analysis of the Interaction Between Alpha-Ketoglutaric Acid and Tryptophan
N. E. Anderson and F. M. Clydesdale* ---------- 163
The Automated Pyruvate Method as a Quality Test for Grade A Milk
R. T. Marshall* and C. C. Harmon ---------- 168
Diffusion of Curing Brine in Tumbled and Non-Tumbled Porcine Tissue
H. W. Ockerman* and C. S. Organisciak ---------- 178
Role of Histidine and Tyrosine Decarboxylases and Mono-and Diamine Oxidases in Amine Build-up in Cheese
M. N. Voigt* and R. R. Eitenmiller ---------- 182
Fouling of Heat Transfer Surfaces by Solutions of Egg Albumin

A. C. Ling and D. B. Lund* ---------- 187
Patulin Production by Species of *Aspergillus* and *Penicillium* at 1.7, 7.2, and 12.8 C
J. Lovett* and R. G. Thompson, Jr. ---------- 195
Survey of Soft and Semisoft Cheese for Presence of Fecal Coliforms and Serotypes of Enteropathogenic *Escherichia Coli*
J. F. Frank and E. H. Marth* ---------- 198
General Interest
New Methods for Microbiological Analysis of Food
C. Goldschmidt and D. Y. C. Fung* ---------- 201
A Perspective on Milk Intolerance
R. S. Katz* and E. W. Speckmann ---------- 220
The Hypocholesteremic Effect of Milk—A Review
T. Richardson ---------- 226

April (No. 4)

Research Papers
Survival of *Lactobacillus acidophilus* in "Sweet Acidophilus Milk" during Refrigerated Storage
Cheryl K. Young and F. Eugene Nelson* ---------- 248
Microflora Isolated from Imported Frozen Lean Beef Pieces
J. L. Oblinger* and J. E. Kennedy, Jr. ---------- 251
A Simple Method to Screen Fruit Juices and Concentrates for Heat-Resistant Mold
D. I. Murdock* and W. S. Hatcher, Jr. ---------- 254
A Research Note: Evaluating Cheese-like Emulsions from Animal Blood Proteins and Whey Solids
F. W. Knapp, R. H. Schmidt*, W. J. Mauldin and E. M. Ahmed ---------- 257
Microbiological Studies on Aging of Intact and Excised Beef Muscle
C. R. Rey, A. A. Kraft*, and F. C. Parrish, Jr. ------ 259
Comparison of Methods for Estimation of Coliforms, Fecal Coliforms and Enterococci in Retail Ground Beef
C. J. Pierson*, B. S. Emswiler, and A. W. Kotula ---- 263
A Research Note: Effect of Mold Growth on the pH of Tomato Juice
J. Orvin Mundt ---------- 267
Evaluation of Quick Bacterial Count Methods for Assessment of Food Plant Sanitation
C. G. Stinson and N. P. Tiwari* ---------- 269
Activities of Five Acid Phosphatases in Purple, Green, and White Eggplants
George J. Flick, Jr.*, Robert L. Ory and Allen J. St. Angelo ---------- 272
A Research Note: Activity of *Streptococcus diacetilactis* and its UV-Induced Mutant in Dahi Prepared from Different Types of Milk
Jasit Singh*, N. N. Bhatt, R. K. Kuila and B. Ranganathan ---------- 275
Automated Impedance Measurements for Rapid Screening of Milk Microbial Content
P. Cady*, D. Hardy, S. Martins, S. W. Dufour, and S. J. Kraeger ---------- 277
Antimicrobial Efficacy of a Potassium Sorbate Dip on Freshly Processed Poultry
Michael C. Robach* and Frank J. Ivey ---------- 284
A Research Note: Effect of Acids on Selenite Inhibition of *Salmonella typhimurium* and *Salmonella dublin*
C. N. Huhtanen ---------- 289
General Interest
Concerns, Experiences, Attitudes and Practices of Executives of Chain Foodservice Firms Regarding Quality Control Procedures
Ernest C. Herrmann, Jr.*, and Judith A. Herrmann ---------- 291
The Need for Standards in Foodservice Sanitation Education
Oscar P. Snyder, Jr. ---------- 295
Microbiological Standards for Water: Introduction
Edwin E. Geldreich ---------- 302
Microbiology Standards for Waters
S. M. Morrison ---------- 304
Microbiological Monitoring for Water-Quality Assessment
Phillip E. Greeson ---------- 309
Standardization of Microbiological Methods for Analysis of Water
Robert H. Bordner ---------- 314
A Field Topic: Trouble Shooting A Mastitis Problem
Sidney H. Beale ---------- 320

May (No. 5)

Research Papers
Microbial Contamination of Vegetables Irrigated with Sewage Effluent by the Drip Method
A. Y. Sadovski*, B. Fattal and D. Goldberg ---------- 336
Effectiveness of Sampling Methods for *Salmonella* Detection on Processed Broilers
N. A. Cox*, A. J. Mercuri, D. A. Tanner, M. O. Carson, J. E. Thomson, and J. S. Bailey ---------- 341
Aflatoxin Production in Black Currant, Blueberry and Strawberry Jams
O. Pensala, A. Niskanen and S. Lindroth ---------- 344
Failure of *Clostridium botulinum* to Grow in Fresh Mushrooms Packaged in Plastic Film Overwraps with Holes
H. Sugiyama*, and Kandee S. Rutledge ---------- 348
Heat Resistance of *Clostridium botulinum* Type B Spores Grown from Isolates from Commercially Canned Mushrooms
Theron E. Odlaug*, Irving J. Pflug and Donald A. Kautter ---------- 351
Fate of *Clostridium botulinum* in Perishable Canned Cured Meat at Abuse Temperature
L. N. Christiansen, R. B. Tompkin and A. B. Shaparis ---------- 354
Evaluation of Raw Milk Quality Tests
C. H. White*, W. T. Gillis, D. L. Simmler, M. K. Galal, J. R. Walsh, and J. T. Adams ---------- 356
Comparative Evaluation of the Difco Disc Assay Method for Detecting Penicillin in Milk and Milk Products
R. E. Ginn, Sita Tatini, and V. S. Packard, Jr.* ----- 361
Bacteriological Survey of Raw "Soul Foods" Available in South Carolina
Adelle W. Stewart*, Annie F. Langford, Carolyn Hall and M. G. Johnson ---------- 364
A Research Note: Single or Multiple Antibiotic-Amended Media to Enumerate Yeasts and Molds
J. A. Koburger and M. F. Rodgers ---------- 367
Interaction of Mycotoxins with Copper-Folin Reagent

Mohamed Y. Siraj, Timothy D. Phillips and A. Wallace Hayes ---------- 370

General Interest Papers

Mycotoxins — A Real or Potential Problem — Introduction
A. Wallace Hayes ---------- 373

Hazards of Mycotoxins to Public Health
Benjamin J. Wilson ---------- 375

Mycotoxins in Feeds and Ingredients and their Origin
P. M. Scott ---------- 385

Trichothecenes: Occurrence and Toxicoses
A. Ciegler ---------- 399

Fallacies in Our Understanding of Mycotoxins
Pat B. Hamilton ---------- 404

June (No. 6)

Research Papers

A Comparison of the Mojonnier and Roese-Gottlieb Methods for Determining Milkfat Content of Ice Cream
H. S. Park* and J. R. McKeon ---------- 424

Relation of *Enterobacteriaceae* Counts to *Salmonella* Contamination of Market Broilers
A. J. Mercuri*, N. A. Cox, M. O. Carson and D. A. Tanner ---------- 427

Effect of Major Spices in Lebanon Bologna on Acid Production by Starter Culture Organisms
J. C. Kissinger and L. L. Zaika ---------- 429

A Microbiological Assay for Penicillic Acid
F. J. Olivigni and L. B. Bullerman* ---------- 432

Lettuce Salad as a Carrier of Microorganisms of Public Health Significance
R. B. Maxcy ---------- 435

Enumeration of *Lactobacillus acidophilus* with Agar Plate Count
E. B. Collins ---------- 439

Oxidative Deterioration in Vegetable Oils: Health-Food Oils Versus Conventional Oils
Ki Soon Rhee* and Alice C. Stubbs ---------- 443

Comparison of Single and Multiple Stage Sieve Samplers for Airborne Microorganisms
A. W. Kotula*, J. R. Guilfoyle, B. S. Emswiler, and M. D. Pierson ---------- 447

Occurrence of *Bacillus cereus* and the Bacteriological Quality of Chinese "Take-Out" Foods
D. A. Schiemann ---------- 450

General Interest Papers

The Foodservice Industry of Our Future
Patrick L. O'Malley ---------- 455

Foodservice Equipment: Technological Trends
Robert V. Decareau ---------- 459

Trends in Food Packaging for Foodservice
Gerald L. Schulz ---------- 464

Food Ingredient Update
Charles J. Rogers ---------- 468

Hospital Foodservice—1978 and Beyond
Nan Unklesbay ---------- 471

Management of Sludge Use on Lane
Charles F. Jelinek and George L. Braude ---------- 476

Microbiological Criteria for Food
John T. Fruin ---------- 481

Delayed Chilling of Beef—A Review
Athan E. Labropoulos and R. F. Kelly* ---------- 483

Fieldmen Planning Their Work
Ed Kaeder ---------- 486

July (No. 7)

Research Papers

Composition of Selected Commercial Salads from the Retail Market
H. O. Jaynes*, M. F. Chen, and W. W. Overcast ---- 510

A Survey of Tomatoes Home-Canned in Utah
David Anderson and V. T. Mendenhall* ---------- 514

Incidence of Salmonellae in Raw Meat and Poultry Samples in Retail Stores
B. Swaminathan*, M. A. B. Link and J. C. Ayres --- 518

Recovery of Salmonellae from Broiler Carcasses by Direct Enrichment
N. A. Cox* and A. J. Mercuri ---------- 521

Stability of Sauerkraut Packaged in Plastic Bags
J. R. Stamer* and B. O. Stoyla ---------- 525

Modified Vogel and Johnson Agar for *Staphylococcus aureus*
Gail P. Andrews and Scott E. Martin* ---------- 530

Thermal Injury and Recovery of *Bacillus cereus*
Harriet Rappaport and J. M. Goepfert* ---------- 533

A Cost Analysis of Alternative Fluid Milk Packaging Systems
Carl O'Connor ---------- 538

Group Comparative Study of VRB-2 Agar in the Recovery of Coliforms from Raw Milk, Ice Cream and Cottage Cheese
R. T. Marshall*, P. A. Hartman, R. Y. Cannon, L. Lambeth, G. H. Richardson, K. R. Spurgeon, D. B. Weddle, M. Wingfield and C. H. White ---------- 544

Device for Microbiological Sampling of Meat Surfaces
B. S. Emswiler*, J. E. Nichols, A. W. Kotula, and D. K. Rough ---------- 546

Aflatoxin is Degraded by Fragmented and Intact Mycelia of *Aspergillus parasiticus* Grown 5 to 18 Days with and without Agitation
M. P. Doyle and E. H. Marth* ---------- 549

General Interest Papers

The Minnesota Program for Prevention of Foodborne Illness: An Evaluation
Thomas L. Heenan and Oscar P. Snyder, Jr.* -------- 556

Foodborne Disease in Six Countries—A Comparison
Ewen C. D. Todd ---------- 559

Clostridium botulinum and Acid Foods
Theron E. Odlaug* and Irving J. Pflug ---------- 566

Antibiotic Residues in Milk: Dye Marking Versus Direct Control
J. L. van Os ---------- 574

Delayed Chilling of Lamb—A Review
Athan E. Labropoulos and R. F. Kelly* ---------- 577

August (No. 8)

Research Papers

Fate of *Salmonella* Inoculated into Beef for Cooking
S. J. Goodfellow* and W. L. Brown ---------- 598

Microbial Persistence on Inoculated Beef Plates Sprayed with Hypochlorite Solutions
T. C. Titus, J. C. Acton, Linda McCaskill, and M. G. Johnson* ---------- 606

Nematodes in Fresh Market Fish of the Washington, D. C. Area
G. J. Jackson*, J. W. Bier, W. L. Payne, T. A. Gerding, and W. G. Knollenberg ---------- 613
Effect of Potassium Sorbate on Toxinogenesis by *Clostridium botulinum* in Bacon
F. J. Ivey, K. J. Shaver*, L. N. Christiansen, and R. B. Tompkin ---------- 621
Media for Confirming *Clostridium perfringens* from Food and Feces
S. M. Harmon and D. A. Kautter ---------- 626
Potential Transmission of Foot-and-Mouth Disease in Whey Constituents
J. H. Blackwell ---------- 631
A Survey of Histamine Levels in Sausage
Steve L. Taylor*, Matthew Leatherwood, and Ellen R. Lieber ---------- 634
Selective Action of Sodium Cholate-$MgCl_2$ Broth and Its Possible Use in Isolation of Salmonellae and Other Enteric Pathogens
J. A. Kinner* and W. A. Moats ---------- 638
Staphylococcal Enterotoxin A and C Production with Various Sugars as Energy Source
M. J. Woodburn*, T. N. Morita, K. Rowe, and S. S. Park ---------- 643
Bacterial Populations of Ground Beef, Textured Soy Protein and Ground Beef Extended with Soy Protein After 3 and 10 Days of Refrigerated Storage
James F. Foster*, Richard C. Hunderfund, James L. Fowler, John T. Fruin, and Linda S. Guthertz ------- 647
General Interest Papers
Natural (Unhydrolyzed) Milk Versus Lactose-hydrolyzed Milk for Cultured Dairy Products: Physiological and Practical Implications for the Starter Industry
Ebenezer R. Vedamuthu ---------- 654
Environmental Health Surveillance at the 1976 Festival of American Folklife
Donald K. Summers and John H. Fritz* ---------- 660
Progress in Palmito (Heart-of-Palm) Processing Research
D. G. Quast* and L. W. Bernhardt ---------- 667

September (No. 9)

Research Papers
Efficacy of Chicken Pepsin as a Milk Clotting Enzyme
S. Gordin and I. Rosenthal* ---------- 684
Effect of Temperature on Survival of Yeast in 45°and 65° Brix Orange Concentrate
D. I. Murdock* and W. S. Hatcher, Jr. ---------- 689
Survey of the Bacterial Populations of Bologna Products
John T. Fruin*, James F. Foster, and James L. Fowler ---------- 692
Microanalytical Quality of Unsweetened Chocolate
John S. Gecan*, John E. Kvenberg, and John C. Atkinson ---------- 696
Inhibition of *Vibrio parahaemolyticus* by Sorbic Acid in Crab Meat and Flounder Homogenates
M. C. Robach* and C. S. Hickey ---------- 699
Lactic Acid Bacteria as an Antispoilage and Safety Factor in Cooked, Mechanically Deboned Poultry Meat
M. Raccach* and R. C. Baker ---------- 703
A Research Note: Persistence of Foot-and-Mouth Disease Virus in Dried Casein
H. R. Cunliffe*, J. H. Blackwell, and J. S. Walker -- 706
Occurrence of *Staphylococcus aureus* in the Moisture Content of Precooked Canned Bacon
Edmund M. Powers*, Thomas G. Latt, Douglas R. Johnson, and D. B. Rowley ---------- 708
Organoleptic, Chemical and Bacterial Characteristics of Meat and Offals from Beef Cattle Fed Wet Poultry Excreta
O. B. Smith, G. K. Macleod*, and W. R. Usborne --- 712
Identification of Yeasts Isolated from Bread Dough of Bakeries in Shiraz, Iran
R. A. Tadayon ---------- 717
Detection of Terpene Compounds from Hops in American Lager Beer
R. J. Micketts and R. C. Lindsay* ---------- 722
General Interest Papers
Geometrical Factors in Color Evaluation of Purees, Pastes, and Granular Food Specimens
Richard S. Hunter* and John S. Christie ---------- 726
Comparative Review of the Thiochrome, Microbial and Protozoan Analyses of B-Vitamins
Michael N. Voigt* and Ronald R. Eitenmiller ---------- 730
A Field Topic: Comparison of the Quality of Two Types of Milk at Two Sources in the Belo, Horizonte, Brazil Market
Manuel S. Borges*, Ronon Rodrigues, Jorge Rubinich, and Celso Medina Fagundes ---------- 739
Detection and Occurrence of Enteric Viruses in Shellfish: A Review
Charles P. Gerba* and Sagar M. Goyal ---------- 743

October (No. 10)

Research Papers
Difference in Injury of Cells of *Vibrio parahaemolyticus* Produced by Heat and Cold Stresses in Liquid and Solid Menstrua
Christina Jost and M. G. Johnson* ---------- 764
Types of *Clostridium perfringens* Isolated from Selected Foods
John T. Fruin ---------- 768
Bacteriological Evaluation of Frankfurters in the Canadian Retail Market
C. L. Duitschaever ---------- 770
Bisulfite Degrades Aflatoxin: Effect of Temperature and Concentration of Bisulfite
M. P. Doyle and E. H. Marth* ---------- 774
Evidence for a Lactic Streptococcal Role in Nigerian Acidic Cassava (*Manihot esculenta* Crantz) Fermentations
M. O. Abe and R. C. Lindsay* ---------- 781
Differential Production of Aflatoxin on Natural and Heat-Treated Cocoa Beans
Gerald C. Llewellyn*, Jeannette Benavides and Thomas Eadie ---------- 785
Cook/Chill Foodservice Systems: Microbiological Quality of Beef Loaf at Five Process Stages
C. A. Dahl, M. E. Matthews*, and E. H. Marth 788
Growth and Production of Enterotoxin by *Staphylococcus aureus* S-6 in Soy Proteins and Soy-Supplemented Beef and Pork Sausage
S. E. Craven*, L. C. Blankenship, and A. J. Mercuri ---------- 794

Formation of Hydrogen Peroxide by Meat Starter Cultures
M. Raccach*, and R. C. Baker ---------- 798
Microbial Harboring Characteristics of Dishmachine-Filmed Glassware
P. M. Schneider, F. F. Busta, and C. R. McDuff* --- 800
Organoleptic, Chemical, and Microbiological Changes in Ultra-High Temperature Sterilized Milk Stored at Room Temperature
R. S. Mehta and R. Bassette* ---------- 806
A Study of the Microbial Quality of Vacuum Packaged Sliced Bologna
D. C. Paradis and M. E. Stiles* ---------- 811

General Interest

Factors that Contribute to Outbreaks of Foodborne Disease
Frank L. Bryan ---------- 816

November (No. 11)

Research Papers

Number of *Clostridium botulinum* Spores in Honey
H. Sugiyama, Daniel C. Mills, and L-J Cathy Kuo --- 848
Significance of Abuse Chemical Contamination of Returnable Dairy Containers: Pesticide Storage and Detector Evaluation
John M. Gasaway ---------- 851
Significance of Abuse Chemical Contamination of Returnable Dairy Containers: Sensory and Extraction Studies
John M. Gasaway ---------- 863
Influence of Continuous Versus Intermittent Tumbling on Brine (Salt, Sugar and Nitrite) Diffusion in Porcine Tissue
H. W. Ockerman* and C. S. Organisciak ---------- 878
Lactic Acid, pH and Bacterial Values of Dry Fermented Salami Containing Mechanically Deboned Beef and Structured Soy Protein Fiber
A. L. Joseph, B. W. Berry*, S. B. Wagner, and L. A. Davis ---------- 881
Patulin Production by Some Fungal Species in Relation to Water Activity and Temperature
M. D. Northolt*, H. P. van Egmond, and W. E Paulsch ---------- 885
Bisulfite Degrades Aflatoxin: Effect of Citric Acid and Methanol and Possible Mechanism of Degradation
M. P. Doyle and E. H. Marth* ---------- 891
A Research Note: Comparison of Bacterial Swab Samples Given Different Storage Treatments
N. G. Marriott*, R. A. Garcia, and D. R. Lee --------- 897
Accuracy of Menus in Foodservice Establishments
Bailus Walker, Jr.*, Joseph Nuzzi, and Robert N. Beck ---------- 899
Effect of Low-Temperature Cleaning on Microbiological Quality of Raw Milk and Cleanliness of Milking Equipment on the Farm
Darrell L. Bigalke ---------- 902

General Interest

Problems and Opportunities for the Foodservice Industry in the 1980's
Arnold S. Roseman ---------- 907
Foodborne Disease in Canada-1975 Annual Summary
E. C. D. Todd ---------- 910
Egg Washing — A Review
W. A. Moats ---------- 919
Presidential Address
David D. Fry ---------- 926

December (No. 12)

Research Papers

Description and Microbiology of Home-Canned Tomatoes and Tomato Juice
J. Orvin Mundt*, and J. L. Collins, I. E. McCarty, and Ruth Bailey 944
Microbiological Quality of Commercial Frozen Minced Fish Blocks
Joseph J. Licciardello and Wilma S. Hill 948
Food Poisoning Potential of Pathogens Inoculated onto Bologna in Sandwiches
D. C. Paradis and M. E. Stiles* 953
Storage Stability and Bacteriological Profile of Refrigerated Ground Beef from Electrically-Stimulated Hot-Boned Carcasses
M. Raccach* and R. L. Henrickson 957
Comparison of Bacterial Species Isolated from Ground Beef, Textured Soy Protein and Ground Beef Extended with Textured Soy Protein
James F. Foster*, Linda S. Guthertz, Richard C. Hunderfund, and James L. Fowler 961
Significance of Abuse Chemical Contamination of Returnable Dairy Containers: Hazard Assessment
John M. Gasaway 965
Occurrence of Aflatoxin in Hypoallergenic Milk Substitutes
A. Wallace Hayes*, Peter D. Unger, Leonard Stoloff, Mary W. Trucksess, Gwendolyn R. Hogan, Nell J. Ryan, and Betty B. Wray 974
Microbiology of the Soda Cracker Process I. Isolation and Identification of Microflora
T. Frank Sugihara 977
Microbiology of the Soda Cracker Process II. Pure Culture Fermentation Studies
T. Frank Sugihara 980

General Interest

Immunotoxicology of Foodborne Substances: An Overview
D. L. Archer 983
Salmonella/Mammalian-Microsome Test to Detect Chemical Mutagens
Kristien E. Mortelmans 989
Mutagenic Analysis as a Means of Detecting Carcinogens in Foods
Barry Commoner*, Antony Vithayathil, and Piero Dolara 996
Report of the Editor, *Journal of Food Protection*, 1977-78
Elmer H. Marth 1004

SUBJECT INDEX

Aflatoxin
degradation, by bisulfite, 774, 891
by mycelia of aspergillus, 549
fallacies, 404

hazards to health, 375
in feeds and ingredients, 385
in milk substitutes, 974
interaction with copper-Folin reagent, 370
produced, in fruit jams, 344
on cocoa beans, 785
Air, microorganisms, determination, 447
Ames test, 989, 996
Amines
cheese, build-up in, 182
sausage, survey of, 634
Antibiotics
Difco disc assay for penicillin, 361
media for yeasts and molds, 367
residues, in milk and testing, 574
in tissues, 8
Bacillus cereus
enterotoxin, method to produce, 116
heat-injury and recovery, 533
in Chinese-style food, 450
Bacillus subtilis
assay for penicillic acid, 432
survival in nonfat dry milk, 16
Bacon
canned, staphylococci in, 708
dimethylnitrosamine, precursors, 31
N-nitrosopyrrolidine, 36
treated with potassium sorbate, 621
Bacteria
harbored by film on glassware, 800
in beef, frozen, 251
ground, 105, 263, 957
ground plus soy protein, 647, 957
loaf, 788
muscle, aged, 259
in bologna, 692
in lettuce, 435
in milk, heated, 122
in rice, 28
in shrimp, 20, 40
in soul foods, 364
in tomato, canned, 514, 944
juice, 944
in vegetables, 336
on beef, chlorinated, 606
plasmids and enumeration, 44
psychrotrophic, heat-resistant, in milk, 93
survival in nonfat dry milk, 16
used to measure vitamins, 730
Bacteriological methods
antibiotic media for yeasts and molds, 367
assay for penicillic acid, 432
automated for testing food, 201
coliforms, fecal coliforms and enterococci in beef, 263
Difco disc assay for penicillin, 361
enterotoxin production, 116
enumeration and plasmids, 44
enumeration of *Lactobacillus acidophilus*, 135, 439
foam-reducing to recover bacteria from food, 829
heat-resistant mold in fruit juice, 254
impedance measurements, bacteria in milk, 277
media for *Clostridium perfringens*, 626
milk quality tests evaluated, 356
minikits evaluated, 107
modified Vogel-Johnson agar, 530
plate count, analyst variation, 4
pyruvate, automated, milk, 168
salmonellae inhibited by acids and selenite, 289
sampling broilers for salmonellae, 341
sampling meat surfaces, 546
sanitation of food plants, 269
sieve samplers for airborne microorganisms, 447
sodium cholate-$MgCl_2$ broth for salmonellae, 638
swab samples, storage treatment, 897
VRB-2 agar for coliforms, 544
